to Ajay

Hello Sir,

Our team would like to review few points as we discussed in our last call.

- We will create a Social Networking website and have to add dummy data for the application.
- We will use MySQL for our database.
- The UI and database will be provided by you.

The next reporting date will be decided by you.

to me

Hello Team,

Yes indeed. Please carry on with our project and I will let you know details on UI and database shortly via phone.

Best Regards,
Ajay Kumar.

Hello Sir,

As part of our project, we are required to include a client video feedback on our project as it is part of our documentation that is to be submitted in the semester project. Please let us know if you don't have any issues.

Hello Team,

I understand your requirement, I apologise that I cannot help you guys as I have a very busy schedule until mid-February as I am working on a feature movie. I Hope it will not create a big problem in your submission. If required I can talk to your professor via phone about this issue.

Best Regards,
Ajay Kumar.

Nov 20

to Ajay

Hello Sir,

We have successfully completed the prototype of our project. Please review the prototype and let us know if you require any further changes.
Website demo: <http://socialratedemo.webliq.gg/>

--

Thank you.
Yours sincerely,
G Vaishno Chaitanya.
NIIT University.

Nov 22

to me

Hello Team,

I have reviewed the prototype of our project. It exactly has the features which I require in our project. But we should try to improve the UI because the current UI is quite simple.
Good work team.

Best Regards,
Ajay Kumar

to me, vadlamudi.vams.

Hello Vaishno,

I see you and your team have done pretty good job, I have seen your beta website this morning.
You have included all the features which I have expected, i.e., Rating, Commenting, Notification, etc. I am really impressed with your work.

I have noticed some bugs in the application, I hope you and your team will fix it soon.
In the future website updated consider adding Voice call and Document sharing.

All the very best to you and your team.

Thank you,
Ajay Kumar.
