

Minutes of meeting (1st)

Meeting with Mr. Ajay Kumar.

Meeting was focused on understanding the requirements for the project and also on the platform on which project will be built on.

Other members present for the meeting:

G Vaishno Chaitanya (B. Tech 3rd year)

Vamsheeth Vadlamudi (B. Tech 3rd year)

B Sai Ram (B. Tech 3rd year)

V Manish Sai (B. Tech 3rd year)

Mohit Singh (B. Tech 3rd year)

Conclusions

B. Tech students will have to create a Social Networking website and have to add dummy data for application. Database that will be used will be MySQL. The UI and database will be provided by Mr. Ajay Kumar, along with login credentials.

Graphical reports must be added into the UI like a sample sent before.

Document related to Software Requirement Specification (SRS) and work proceedings must be shared soon.

Also Document with relating our course Software Engineering with the Industrial experience will be shared with Mr. Ajay Kumar every 15 days.

Hence we the students will be making a Social Networking website using tools like PHP, MySQL (database) and others.

The next reporting date will be decided by Mr Ajay Kumar.

Minutes of meeting (2nd)

Members Present for the meeting:

Mr. Ajay Kumar (mentor)

Team members (NIIT University)

Vaishno Chaitanya, Vamsheeth Vadlamudi, V Manish Sai, B Sai Ram, Mohit Singh

Discussion was based for updating mentor with teams work.

Conclusions

Team was suggested to review the UI flow once again thoroughly.

Inside product use cases are present: Signup, Login, Rating Profile, Messages, Comments, Post, and Privacy.

Minutes of Meeting (3rd)

Members Present for the meeting:

Mr. Ajay Kumar (mentor)

Team members (NIIT University)

Vaishno Chaitanya, Vamsheeth Vadlamudi, V Manish Sai, B Sai Ram, Mohit Singh

Discussion was based for updating mentor with teams work.

Conclusions

Mentor gave instructions to modify the work done by the team.

Modification includes

Deleting the dummy option.

Landing interface after login must be changed according to work flow provided.

Team assured the working of application on different platforms.

Mentor asked to start applying graphical reports to application as per work flow provided.

Using HTML5 feature to create local storage, to pass variables form one page to another page.

Minutes of Meeting (4th)

Members Present for the meeting:

Mr. Ajay Kumar

Team members (NIIT University)

Vaishno Chaitanya, Vamsheeth Vadlamudi, V Manish Sai, B Sai Ram, Mohit Singh

Discussion was based on clarifying some concerns that were mentioned by the mentors and some changes suggested by the mentors to the team.

Conclusions

Configuration file need to be done by the team.

It has been clarified that students has tested the application on different sizes of web browsers.

Source code files have to be done by the team.

Mentor suggested finding a solution to create database that starts when application starts and stops when applications stops.

As team is not so comfortable with aspx they will continue with PHP.

Video of working application and Deployment steps should be provided by the team.

Minutes of Meeting (5th)

Members Present for the meeting:

Mr. Ajay Kumar

Team members (NIIT University)

Vaishno Chaitanya, Vamsheeth Vadlamudi, V Manish Sai, B Sai Ram, Mohit Singh

The team has submitted the prototype to the mentor.

Conclusions

Mentor has received the working prototype.

Team has submitted all required documentation to mentor.

As per the professors request, we asked the mentor for the video proof and due to lack of email communication proofs, we have requested our mentor to accept the Minutes of Meeting created by our team and he agreed to review our Minutes of Meeting.

Video of working application and Deployment steps should be provided by the team.
